Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over either EP 0286538, EP 0302382 or Freiburger et al 5,516,000 each in view of Heath et al 6,699,360. The primary references disclose the invention substantially as claimed, namely a stack of interfolded absorbent sheet products comprising a plurality of interleaved absorbent sheets each of which is folded twice about axes that are perpendicular to one another; see Figure 1 and column 8, lines 25-57 of EP 0286538, Figures 2-4 and page 3, lines 51-58 of EP 0302382, and Figure 7, column 1, lines 5-19 and claim 1 of Freiburger et al. The secondary reference discloses a single ply, absorbent sheet product which may be embossed and has a basis weight of 12.5; see the Abstract. It would have been obvious to one of ordinary skill in the art to use the tissue product of the secondary reference as the sheet products in the primary references in order to provide an economical product with enhanced softness.

With regards to claims 8-13, it would have been obvious to one of ordinary skill in the art to vary the size of the panels and the amount of folds in the sheets to provide the desired size of the absorbent product for a particular end use.

Claims 14 and 15 are directed to process limitations that do not add any patentably distinguishing features to the final product.

As to claims 18 and 20, the references disclose the sheets in dispensers with an opening. The phrase "downwardly-directed" (claim 18) is relative depending on how one views the dispenser and therefore does not distinguish over the prior art articles. In claim 20, the phrase "oriented at an dispenser" does not further define the claimed article since the support surface is not being claimed in combination with the dispenser and may be positioned at any angle.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
